

**REMARKS**

Introduction

Claims 1-4, 6-7, 10-11, and 14 are pending. Claim 1 has been amended to correct the omission of the word "and" as the Examiner recommended. No new matter has been added by this amendment.

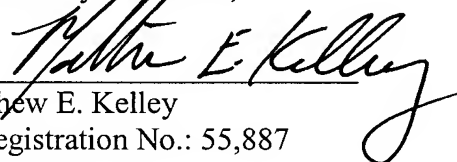

Provisional Rejection

The Examiner has rejected claims 1-7 and 10-14 on the ground of obviousness-type double patenting in view of Applicant's U.S. Patent Number 6,384,087 and U.S. Application Number 10/066057. Applicant disagrees with this provisional rejection.

However, solely to expedite prosecution, Applicant submits herewith a Terminal Disclaimer. Applicant believes that this is a full and complete reply to the Office Action dated December 12, 2006 and that this places the claims in condition for allowance.

Dated: February 23, 2007

Respectfully submitted,
